Subject to the exceptions provided in this chapter, such charge shall be based upon the quantity of water used in or on the premises as the same is measured by a water or sewage meter or meters approved by the city. Additional charges for extra strength sewage, toxic pollutants, and wastewater monitoring will be levied where applicable.

(1) Quantity charges for residential users shall be based on the average monthly water usage during the immediate preceding months of January, February and March. When a residential user does not have a history of water usage for the immediate preceding January, February and March or when a residence is not properly metered, the quantity charge shall be computed on the basis of average water usage for the entire residential class. Charges for commercial and industrial users shall be based on one hundred (100) percent of the monthly metered water used except as otherwise provided in section 29-122.

(2) Beginning July 1, 2017, temporary construction users of the sewage system of the city shall pay for the use of such system based on the following schedule of rates:

(c) Extra strength charge. Wastewater discharged to the sewage system from commercial or industrial users shall be subject to an extra strength charge when the BOD or suspended solids concentration exceeds three hundred (300) milligrams per liter (mg/l) by weight. All analyses shall be performed on composite samples collected at no less than hourly intervals over a twenty-four (24) hour period. Extra strength charges shall be calculated based on one hundred (100) percent of metered water use, except as otherwise provided in section 29-31, in accordance with the following formula:

$$S = V_s \times 0.00692 \times [\$0.126 (\text{BOD} - 300) + \$0.102 (\text{SS} - 300)]$$

Where:

S	=	Surcharge in dollars monthly.

discharge elimination system compliance, that user shall pay a monitoring charge. The monitoring charge shall consist of all costs for personnel, material and equipment used to collect and analyze samples from the user's sewage. The exact charge shall be based on actual costs and shall be determined by the city.

(e) Toxic pollutant charge. Any user which discharges any toxic pollutants which cause an increase in the cost of managing effluent or sludge from the city's treatment system shall pay for such increased costs.
